

Wake Up the World: World Scientific Meditation Movement (Chinese Edition)

Master Q developed a series of new meditation systems using the debate method to push a participants thoughts into a concentrated mindset. Master Qs Scientific meditation systems mark a major difference in guiding the thoughts to a specific topic and replace the role of traditional Chinese Buddhism Huatou method. In this book, Master Q guides the participants to use three major philosophical theories (regarding Ontology, Phenomena, and Knowledge) as the bases of debate method. Further, participants can use the Seven W to challenge and question the problems within the three theories and connect to their own daily life.

If all the educated population can employ Master Qs systems into their lives, not only can they enlighten their spirit but also flourish more wisdom to challenge world problems and create new spiritual cultures for world. Thus, wake up the world!
