

OSHA Small Business Handbook

American employers and workers want safe and healthful places in which to work. They want everyone on the job to go home whole and healthy each day. Determined to make that dream possible, OSHA is committed to assuring so far as possible that every working man and woman in the nation has safe and healthful working conditions. OSHA believes that providing workers with a safe workplace is central to their ability to enjoy health, security and the opportunity to achieve the American dream. OSHA seeks to cut unnecessary rules, regulations and red tape. It is eliminating thousands of pages of outdated regulations and continues to rewrite standards in plain English. OSHA is paring down its regulatory agenda so that it more accurately reflects realistic goals that best serve the needs of American employers and employees.
