

Sometimes Music Is My Only Friend

Sometimes Music is My Only Friend.

Following career advice from James Bond author Ian Fleming, Harry Buckle became a journalist. This very funny but true story, follows him, from his years as the 60s most read pop guru in Jackie Magazine (with the pen name Pete Lennon) to starting his own music company, and somewhat to his surprise, bringing you a hundred or so Top of the Pops hits.

You'd think being a music journalist was safe enough, except for predatory female fans, but I hadn't really expected the US Airforce to drop four H Bombs on me. Real ones.

Then he found himself reluctantly working with both the British and Russian Secret Services, and interrogated in Moscow about what he had been doing at No. 10 Downing Street. It seems to us you are seeking to destabilise your rulers with naked pictures of Harold Wilson. No ?

I don't gamble. Life in the music business is enough, but we won tens of thousands of pounds, for four years running when we apparently learned the results of the Miss World contest in advance.

Having the hits, confirmed the old music industry adage, Happy to be Part of the Industry of Human Happiness...with many of those hits coming from Depeche Mode, Yazoo, Alison Moyet, Erasure and others - but then sitting watching national TV news in the USA and discovering I was apparently working with the Mafia was a bit of a reality check.

You want to know who was to blame for Agadoo, Yviva Espana, The Birdie Song and some others, starting the whole dad dancing phenomena... Sometimes Music is My only Friend by Harry Buckle reveals all this and more.

The book is very much a celebration of the world that created the backdrop for the wonderful Jackie The Musical. With some fine (and funny) recollections of life as it then developed. The book's title, Sometimes

Music is My Only Friend, now seems often to sum up the feelings of more than just the Jackie generation.
