

## Spons Civil Engineering and Highway Works Price Book 2003

More than just a price book, SPONs Civil Engineering and Highway Works Price Book 2003 is a comprehensive, work manual that all those in the civil engineering, surveying and construction business will find it hard to work without. It gives costs for both general and civil engineering works and highway works, and shows a full breakdown of labour, plant and material elements. Thoroughly comprehensive and structured to comply with CESMM3, the book includes prices and rates covering everything from beany blocks to well-pointing, from radio masts to coastal defence. In a time when it is essential to gain competitive advantage over the competition in an increasingly congested market, this book provides instant-access cost information and is a one-stop reference containing tables, formulae, technical information and professional advice. The Civil Engineering and Highway Works Price Book for 2003 comes with a free CDROM that enables the reader to view the entire book on screen, cut and paste prices into other tender documents, export to other major packages, perform simple calculations, index search, produce estimate and tender documents, adjust rates and data. This complete package now means that Spons is now better than ever and is a resource that civil engineers, surveyors and the construction industry cannot do without. New Features for 2003A review of the Aggregate Tax and an examination of tax free alternative materials and a detailed examination of crushing plant costsAn expansion of the Land Remediation section to include three whole site case studiesExpansion of the Dayworks sectionA revision and expansion of both the Outputs and the Tables and Memoranda sections with more useful dataIntroduction of definition of measurement notes in the Civil Engineering Works and Highway Works unit cost sectionsIntroduction of cladding
