

My Afterlife

The novel *My Afterlife* explores the delicacy of the human mind and the difficulties involved when our imagination becomes a reality. It is broken up into four parts: Judgment, Hell, Heaven, and Life. After committing suicide, James Taylor wakes up to find that he has to spend eternity in an afterlife. Displaying little faith in the judgment room and failing to answer questions, James is sent to hell. Hell is overcrowded with little space and is controlled by heavenly souls that look down on everyone from monumental towers. During his exploration, James meets some friends and they journey to the beginning of hell. Captured by a hell guardian, James finds that he is scheduled to be baptized by the Mormons, and after experiencing how antagonizing hell is, he suspiciously accepts to go to heaven. James soon escapes and finds that heaven is involuntarily shared by all religious groups. They live in separate paradises, except for Heaven Central, which was created to maintain peace despite the different beliefs. Contrary to life, James cannot find a way to die and encounters problems he did not foresee.
