

Supercharge Your Documentation

Documentation is far more than piles of papers, source code and folders. Documentation is, in fact, a compelling process that increases the effectiveness, profitability and ultimately the value of your organization. Organizations today are drowning in documentation requirements with little understanding or guidance of what to do. If documentation is such a vital component of our organizations, why are there no documentation best practices for managers and professionals to turn to? This book will provide you with a practical, comprehensive and easy-to-read guide to documentation best practices. This book will teach you to: STOP assuming that your employees and consultants are on the same page. STOP chasing the latest buzz word and new technology. STOP reinventing the wheel of your corporate plan. STOP losing the knowledge of your employees and consultants. STOP locking information in silos across your organization. START supercharging your documentation!
