

## The Art of Vintage: An aesthetic odyssey through 20 vintage Perrier-Jouët champagnes

The Art of Vintage is a fascinating insight into the mystique, the art and the history surrounding twenty legendary vintage champagnes produced by Perrier-Jouët champagne one of the most famous champagne houses in the world, well known for its Cuvee Belle Epoque and its distinctive bottle. The book is organised into twenty chapters, commencing with the oldest vintage champagne of 1825, and culminating with the first vintage of the new millennium in 2002. Each chapter contains notes and recommendations by wine critic and Sotheys Master of Wine, Serena Sutcliffe. This luxurious book also features a history of the house of Perrier-Jouët by historian Jean-Pierre Devroey, together with art specialist Federico Simontis reflections on art and fashion trends of the period, as well as author and journalist Leslie Geddes-Browns insights into the events and iconic moments from 1964 to 2002. Special photography is by the celebrated Japanese photographer Makiko Takehara, and each chapter is also illustrated with specially selected paintings and artwork that provide a historical background to each of the vintages, highlighting not only the influence of art, but also a reference to the changes in fashion, jewellery and design of the time. The Art of Vintage has great appeal for lovers of champagne and fine art alike, combining in one beautiful volume a journey through twenty significantly different eras, over a period of more than 150 years.
