

Christopher Hickey: Memories of a Friend

My story begins in the past, in Ireland, many years ago, when I first began school. I made many different friends throughout the years there, but as time passed, it was clear that only one of those friends remained by my side. The following is a true account of a childhood friendship, and how the hand of God brought it to an abrupt and unexpected end. Coping with bereavement can be very difficult, as the author's narrative suggests, and faith presents itself as a key factor in the healing process.
