

# The Brewers Tale: A History of the World According to Beer

Winner of 2014 U.S. Gourmand Drinks Award Taste 5,000 years of brewing history as a time-traveling homebrewer rediscovers and re-creates the great beers of the past. The Brewers Tale is a beer-filled journey into the past: the story of brewers gone by and one brave writers quest to bring them?and their ancient, forgotten beers?back to life, one taste at a time. This is the story of the world according to beer, a toast to flavors born of necessity and place?in Belgian monasteries, rundown farmhouses, and the basement nanobrewery next door. So pull up a barstool and raise a glass to 5,000 years of fermented magic. Fueled by date-and-honey gruel, sour pediococcus-laced lambics, and all manner of beers between, William Bostwicks rollicking quest for the drinks origins takes him into the redwood forests of Sonoma County, to bullet-riddled South Boston brewpubs, and across the Atlantic, from Mesopotamian sands to medieval monasteries to British brewing factories. Bostwick compares notes with the Mt. Vernon historian in charge of preserving George Washingtons molasses-based home brew, and he finds the ancestor of todays macrobrewed lagers in a nineteenth-century spys hollowed-out walking stick. Wrapped around this modern reportage are deeply informed tales of historys archetypal brewers: Babylonian temple workers, Nordic shamans, patriots, rebels, and monks. The Brewers Tale unfurls from the ancient goddess Ninkasi, ruler of intoxication, to the cryptic beer hymns of the Rig Veda and down into the clove-scented treasure holds of India-bound sailing ships. With each discovery comes Bostwicks own turn at the brew pot, an exercise that honors the audacity and experimentation of the craft. A sticky English porter, a pricelessly rare Belgian, and a sacred, shamanic wormwood-tinged gruit each offer humble

communion with the brewers of yore. From sickly sweet Nordic grogs to industrially fine-tuned fizzy lager, Bostwicks journey into brewing history ultimately arrives at the head of the modern craft beer movement and gazes eagerly if a bit blurry-eyed toward the future of beer.
