

Dragonmarch (The Canticles of Andurun Book 2)

The Dragon Brackaelyk is dead. Justias Eventine returns to Southdeep a conquering hero, only to learn that his closest ally and budding friend Uriel Ravenlore has gone missing, presumed dead after a battle with the Dragon Clerics. To procure an ancient artifact from the lords of Southdeep, Justias agrees to embark upon another seemingly impossible quest: to penetrate the Temple of Red Glass, a Dwarven prison hidden beneath the very streets of Cantlin City. Meanwhile, Gildaryss continues to seek a means of destroying the Human race by fanning the flames of war across Kallendaros. Driven by their Draconic masters, the Priesthood begins its campaign to march against the southlands and finish what was begun two hundred years ago: the subjugation of the Old Nobility. All the while a new threat awakens in the forgotten west. The ancient Houses of the Nightshade Forest become the vanguard, resisting an army loosed by Brackaelyks demise. Old factions align as war looms upon the horizon and the Dragon Slayer King is tried in the furnace of affliction. But will his trials temper him, or prove to be his undoing?
