

Consumer Behavior (Chinese Edition)

For many years, based on the research in the United States in hundreds of university teachers and students, dozens of teaching majors, the world famous education publishing group holy wisdom study published the company unveiled 41 tr press (Chinese name happy reading) series materials. This series changed the past the teaching material thick heavy and complicated, full consideration of the new age student learning and reading needs, with its comprehensive, concise and comprehensive, with pictures, exquisite binding learn and exam, both the major characteristics. It is regarded as the happy reading material example after it was introduced, that is a huge success, by the teachers and students hot holding, which quickly became the leader of the teaching material market. Today, more than 1500 university in the world, 100 students have been or are using this series of materials. In 2010, under the commom efforts from different parties, happy reading translation series in China to formally published version. We believe that it will become a Chinese teachers favorite, and aslo students favorite book.
