

Governance, Communication, and Innovation in a Knowledge Intensive Society

The proper use and dissemination of information among stakeholders, organizations, and societies is crucial for the development of productive and prosperous communities. Governance, Communication, and Innovation in a Knowledge Intensive Society gathers current research on knowledge management in governments, organizations, and institutions, and presents a compilation useful to academics, professionals, politicians, and policymakers invested in knowledge intensive societies. This book investigates the impact of knowledge and information technologies on fields as diverse as education, culture, science and business, in order to provide an effective framework for effectively navigating the nuances of an information-pervasive world.
