

## The Vesuvius Club (BBC Radio Collection: Crimes and Thrillers)

The League of Gentlemen, Mark Gatiss reads his own bestselling novel. Presenting a thrilling plunge into Edwardian low life and high society with England's most dashing secret agent...Lucifer Box is the darling of the Edwardian belle monde: portrait painter, wit, dandy and rake - the guest all hostesses must have. And most do. But few know that Lucifer Box is also His Majesty's most daring secret agent, at home in both London's Imperial grandeur and the underworld of crazed anarchists and despicable vice that seethes beneath. And so of course when Britain's most prominent scientists begin turning up dead, there is only one man his country can turn to. Lucifer Box ruthlessly deduces and seduces his way from his elegant townhouse at number 9 Downing Street (somebody has to live there), to the seediest stews of Naples, in search of the mighty secret society that may hold the fate of the world in its claw-like hands - the Vesuvius Club. The most delicious, depraved, inventive, macabre and hilarious literary debut I can think of ...More, I want more! - Stephen Fry. Hugely enjoyable - Times.
