

The Will of Love

This book is written from classical collections of my struggles in life and my decisions through critical moments some of them was dirty, some of them was stupid and most of them was specific about love. However its a concise short words which I presented to you based on my ideology that modern society is occupied and busy so therefore should be given happy time easy times and moments of relaxation. This book is small but its interpretation could be deep because it contains inscriptions of different insights of various situations so this book is written to act like a seed planted in a soil how you interpreted depends on the type of fruit it will bear but I hope it inspire you to be a better person. I do believe that this is work is suitable for youth, family people and modern philosopher reflecting about Love, Life and Time. Finally please give me feedback about what you think or feel because this is my first book and it took me more than 2 years.
