

## Friendships Are For Memories

Tracy and Julianna were the best of friends.

They were raised in the 1970s and shared many life experiences. As children, they never imagined not being together but as they grew up, they grew apart. Life took each of them down very different roads. Could they come back together or would their friendship become a distant memory?

Enjoy a trip down memory lane as this book is not just a story of a very special friendship, but also a nostalgic story of growing up in the 1970s and 1980s.
