

Two Eggs, Two Kids: An egg donors account of friendship, infertility & secrets

GRAND PRIZE WINNER, 2015 SAN FRANCISCO BOOK FESTIVAL!
Alicia Young doesn't have kids. (She forgot.) Yet she has two biological children. *Two Eggs, Two Kids* is the story of how Alicia came to donate her eggs to two couples—both good friends who were struggling with infertility. The way these families began and the way their relationships unfolded could not be more different. One baby's origins were celebrated in the open. The others' roots were cloaked in secrecy. *Two Eggs, Two Kids* provides an insightful, touching, and gently humorous look into the world of infertility—a world experienced by one in eight couples today. Meet: Alicia, the egg donor, who explains why she did it, how she did it, and how she feels today; Angela, one of the egg recipients, who recounts her journey and what propelled her; Rachael, Angela's daughter, who reveals how she feels about her spare mom. *A Guided Tour to Being an Egg Donor: A handy peek into the physical and emotional assessment. What you can expect from the process. Anecdotes from other donors, recipients, and family members. A checklist of questions for donors and recipients. Tips for family and friends on both sides.*
