

Got Gold? Get Gold!: The Everything Gold Book.

Got Gold? Get Gold! The Get Gold guide book is your compass for protecting the wealth you have and surviving the unfolding Greater Depression. The U.S. Dollar is no longer backed by gold. In fact, it is not backed by anything except legal tender laws. New dollars are simply created as needed. This is known as inflation of the money supply and has the effect of devaluing every other dollar already in existence. This over-issuance of dollars causes prices to rise. Gold is money. Gold has always been money throughout recorded history. Periodically, gold is not recognized as money. It becomes recognized as money again when currencies falter. The U.S. Dollar is currently faltering and its devaluation is accelerating. Gold is the anti-dollar and the dollar is the anti-gold. As the value of the dollar erodes, it takes more of them to purchase a set amount of gold. It is clear that both gold and silver have been in a bull market since the turn of the century and will continue to be unless the devaluation of the dollar ceases. We must protect ourselves from this rapid debasement of our currency with tangible assets. The most conservative of all commodities and assets are precious metals.
