

Women, Wealth and Wisdom: Unleash The Fire Within To A Life Of Purpose

History has taught us that when women move together the nation often follows. WOMEN, WEALTH and WISDOM; Unleash The Fire Within To A Life Of Purpose opens a door to financial freedom like suffrage opened the door to new political powers. In the post birth control rights era, personal finance is now the final feminine frontier. So why are women today failing at personal finances? Why are todays women more and more at risk of slipping into a financial abyss than men? How can this be prevented? What does this mean for you and your spouse today? WOMEN, WEALTH and WISDOM; Unleash The Fire Within To A Life Of Purpose is unique because it unites concepts of women and wealth with living with a purpose. Steve Wightman explains important decisions that divide those unable to find fulfilling lives rich in prosperity, love, and purpose from those who do. Peppared with personal anecdotes, the book reveals sixteen smartest things women do in a lifetime. He understands women today are often confused and uncertain about their financial security. He addresses this concern with clarity and purpose by stating vital steps women need to take today. Financial planning, he argues, is far more important than planning a wedding or a family reunion because these events are just drops in a bucket contrasted against an entire life. Its about life transitioning and survival today. Financial planning is life planning. Its about what you are and what you want your life to say about you now and tomorrow! After more than seventeen years of practice as a fee-only certified financial planner serving families including women in transition to single life, Wightman looks at what men know and women often dont and how these distinctions create a wealth divide. One woman in severe financial distress taught him a vital lesson. She telephoned him and

said: I have a loaded gun pointed at my head and Im just calling to say goodbye. Like someone whos survived a lightning strike, Wightman felt compelled to write this book because he clearly understands that financial well-being is linked to physical and mental health. Moreover, this connection to mind and wallet is also linked to the health of our society and our nations economy. It means the difference between being a government revenue supporter or a dependent. Intended as a 50+ womans guidebook to a lifes destination all her own, this book is also serves anyone who desires a clear path to a life of personal power, prosperity and purpose. Once you open WOMEN, WEALTH and WISDOM; Unleash The Fire Within To A Life Of Purpose you also open the possibility of a new life of purpose, power and prosperity. Now you can put an oracle in your very own hands. Get in on the conversation and youll never again be alone or lost in the scary world of personal finance. The future belongs to those who seize opportunity. Dont let this one pass you by. Live well and prosper. A well planned life is an extraordinary one.
